

Sample Itinerary for a Four Day Art Study Tour of Barcelona.

Dates: To Be Decided.

The itinerary is designed to balance visits of the greatest interest with recreative activities. It aims to make the maximum use of time without exhausting participants. The itinerary we have proposed is flexible and is only finalised after discussion with the Party Leader(s). Flexibility is also built into the holiday itself as changes can be made at very short notice according to weather conditions etc. The visit will be guided throughout. All excursions are well-prepared and are backed by notes and a commentary. The director is able to run the holiday according to Party Leader wishes. In this way Party Leaders will be free to concentrate on the care of their pupils rather than the organisation of the tour. The whole stay is underpinned by excellent accommodation, catering, transport and security.

DAY TWO

- 09.30 Metro transfer to Picasso Museum.
- 10.30 **The Picasso Museum**
www.museupicasso.bcn.es

The Picasso museum is one of the world's most important collections of The Master's work. Picasso spent much of his youth in Barcelona and maintained close links with his Catalan friends when he left for Paris in 1904. The time he spent in Barcelona encompassed most of his 'Blue Period' and was the occasion for many of the formative influences on his art. The collection is very well laid out in three stages: ceramics, paintings/sketchings and lino cuttings.

- 12.30 Lunch in the Gothic Quarter.

- 14.00 **Walking Tour of the Old Quarter of Barcelona**

The tour will include the old town of Barcelona and will end with a visit to The Palau Reial. This was the Palace of the Counts of Barcelona and now houses a museum of the history of the city. Pupils will enjoy wandering through the Gothic area of the city, near the Placa Reial. The streets in this area have remained unchanged for decades and give a good impression of the severe lack of space that the city has experienced as a result of its historic immigration from Andalusia and other southern regions.

Pupils will enter the Moorish style cathedral and see the traditional 11 white geese that have inhabited the cloisters. Initially they acted as a noisy alarm in case of ransack or invasion by hostile foes. Outside the cathedral, pupils will view marks made in the wall by the elite troops as they sharpened their swords on the soft cathedral brick. The tour will end at the Picasso Museum, where the wealthy traders who profited from trade with the Americas could afford to buy the city's most prestigious and sumptuous houses with courtyards. These can still be seen today as most of the houses now house a wide variety of art museums.

15.30

Ascent of The Sagrada Familia

www.sagradafamilia.cat

This spectacular building was to be Gaudi's crowning achievement until he was killed by a passing tram while admiring his work from the street. This building is still being built and locals wonder whether it will ever be completed. Pupils will ascend one of the eleven towers after viewing the deeply religious facades at the front and rear of the temple. Some of the best views of Barcelona can be gained from the top of the Sagrada Familia. Afterwards we will view the subterranean museum, including Gaudi's workshop and the crypt where he is buried.

18.00

Visit to Gaudi's La Pedrera

www.gaudiallengaudi.com/AA009.htm

La Pedrera is one of Gaudi's strangest and most intriguing buildings. Located on the busy road of Diagonal, a visit to the roof of this building provides students with a stunning view over the Barcelona rooftops and a series of foreboding sculptures and helmet-shaped clusters, many of which were based on Gaudi's vivid religious nightmares.

18.30

View of Gaudi's Casa Battlo.

www.casabatllo.es

This strange Modernist work resembles a dragon's back, symbolising the patron saint of Barcelona. Best viewed at night, the scales of the rooftop appear to be shimmering under the spotlights. Pupils always respond to this amazing building situated on one of the city's finest shopping streets.

View of Montjuic's Magic Fountains

www.youtube.com/watch?v=11G2d9c4s3o

Lights, colour, music, water...action! Montjuic's Magic Fountain has it all. Soft tones of coloured lights bathe the watery mist in shades of reds, greens and yellows as the Magic Fountain sprays and shoots water in all directions to the sounds of Mozart, Queen and Whitney Houston.

Montjuic's Magic Fountain was built in 1929 and restored in 1992 for the Barcelona Olympic Games. The fountain spurts, shoots and sprays water to the sound of music and a mixture of colorful lights. Located at the foot of the steps up to the Museum of Catalan Art on Montjuic mountain, this visit is a highlight for many visitors to Barcelona.

Gaudi's modernist park is largely made from broken porcelain and china that was reclaimed from the Barcelona municipal rubbish tip. The park is set on a peaceful hillside overlooking the city & beach below. Our art students are always impressed with the Park Guell. They can choose to sketch, paint or photograph the various attractions which include a large porcelain lizard, a Modernist ceiling, brightly coloured seats, a grotto & Gaudi's House - one of the most eccentric buildings in Barcelona. We will have time to enjoy an ice-cream while watching the wild parrots fly overhead or simply to relax on the grass under a palm tree.

12.00 Transfer to The Neu Camp Stadium.

13.00 **Visit to The Neu Camp Football Club - 'Home of the Barca'**
www.fcbarcelona.com

The football club of Barcelona is one of the world's richest and most successful. The club became a symbol of Catalan nationalism under the dictator General Franco and helped to culturally integrate many of the Andalusian immigrants at the time. When Franco made it illegal to fly the Catalan flag, Barcelonans flew the Barca flag instead. Many famous players have played for the club, and the museum is located in the West stand of the huge stadium. This visit is also of interest to those with little interest in football and exhibits include the original Barca flag painted by Joan Miro, a pair of Ronaldo's boots, masses of silverware in the Trophy Room and a ticket signed by the Pope.

ALTERNATIVE VISITS TO CONSIDER:

Full Day's Visit to Port Aventura Themepark.

www.portaventura.co.uk

We will spend the whole day at this excellent themepark, one of the most popular in Spain. The park is divided into five different lands - South America, The Wild West, Asia, Polynesia & Europe. Each land has its own distinct identity & attractions. There are shows throughout the day, a variety of restaurants & some of the world's most advanced rollercoasters. 'Dragon Khan' is the only ride in the world to boast eight inverted loops. The 'Stampida' rollercoaster is constructed totally of wood & the Tutuki Splash ride leaves participants absolutely soaked to the skin! 'Hurakan Condor' is a gravity-defying ride which climbs 100 metres in the air before subjecting participants to a terrifying freefall which reaches speeds of 70mph - not for the fainthearted!

Visit to the Mountain & Monastery of Montserrat.

www.barcelona-tourist-guide.com/en/tour/montserrat-spain.html

After ascending the perilous twisting road to the top of the Mountain of Montserrat, participants will be able to enjoy some of the most spectacular views in the whole of the Catalunya region. The literal translation of Montserrat is 'sawed mountain', named because of the many jagged rocks, many of which are given strange names based on their appearance. The Monastery of Montserrat is a place of pilgrimage for many & is the spiritual heart of the Catalan region. It is traditional for a worshipper whose prayers have been answered to give thanks by ascending the mountain barefoot. We will visit the monastery, with its holy relic - the Black Madonna. At 13.00 we will gather to watch the Montserrat choir perform inside the monastery. There is a pleasant shop & cafeteria where students can sample local tapas foods or have a drink.
